Thanks. Yes, please keep me apprised of any decisions like this. Really hoping Tomas's intervention will help resolve it.

David – just an FYI. Shari is pushing off work due to the low funding situation. Kate

Hi Calvin,

I accepted the invitation for the call on Friday.

I wanted to let you know that we have not begun creating the list of follow up requests (i.e., to track expectations). As Kate may have mentioned, we are running low on funds on the work assignment. Since this list won't be needed until closer to when the permit is issued, I suggest we defer it.

Hopefully the new resources will be available by the time CES replies on March 5.

Kate: I don't think this 1 hour call (and brief notes) will make too much of a difference in the overall WA. We can all discuss if there are any needs for significant follow up activities.

Hi Shari, CES has a few questions about the recent tech review comments and requests for a discussion call. Are Cadmus available 8am-9am PST this Friday? If not, we can propose sometime next week.

Hi Calvin,

I hope you had a nice weekend.

Per our discussion last week, we have received the latest Information Request from EPA regarding our Class VI UIC pre-construction permit application. The technical team has reviewed the document and are working toward responses to be submitted by the requested 5-March date.

After review, the team has a few questions they would like to discuss with you and the technical reviewers. Identified topics include:

- Updated risk assessment guidance
- California's Central Valley subsidence
- Other (@Vivian Rohrback, please let me know if I have missed anything)

Also, I wish to confirm with you the next steps. We currently envision responding directly to this information request first, then working to update the necessary components of the application, e.g. Narrative, Attachments C, D, etc., by a later date yet to be determined, but are open to suggestions/discussion on the matter.

Are you and the team available to meet this week to discuss the topics outlined above? We have availability Wednesday (tomorrow) and Thursday (18-Feb) in the afternoon. Also, can be flexible on Friday (19-Feb).

Thanks again, Calvin.

Talk soon,
-Rebecca
